Western Equipment and the Soviet Chemical Industry
 - #60 RR 59-4, January 1959
Production of Chemical Equipment in Czechoslovakia 1948-57

25X1C

- 2 -

3. We appreciate that EURATIC should be able to get ORR reports through the regular channels, but they have never received any and it would be to our advantage to help them out. At the moment they are working with obsolete background studies made by ATIC. These studies were inadequate when they were modern.
